

VOL. IX. NO. 12

FRESNO, CALIFORNIA, SUNDAY, JANUARY 13, 1895

PRICE—5 CENTS

CITIZENS RESPOND

By Thousands to Mayor Su
tro's Call.

RESOLUTIONS WERE ADOPTED

Denouncing Huntington, Markham,
Knight and the Appointment
of Mose Gunst.

SAN FRANCISCO, January 12.—The citizens responded by thousands tonight to Mayor Suero's call for a mass meeting to protest against the appointment of Mose Gunst as police commissioner, to denounce United States Attorney Knight for his refusal to issue a warrant for the arrest of C. P. Huntington for violation of the interstate commerce law and to denounce the frauds that were committed at the last election. Metropolitan hall was crowded to the doors and thousands of people were turned away. The meeting was very business like. Representative citizens were there, speakers were made by prominent men and appropriate resolutions adopted.

The resolutions adopted denounced O. P. Huntington as a self-confessed briber because him of taking \$5,000,000 from the English stockholders in the Central Pacific, and a solemn protest was entered against the passage of the funding bill and the speaker of the house appended to it to protect the people of California by refusing to give a special order for a day to the Central Pacific railroad committee, and each individual member of congress is appealed to not to overlook the 200,000 protests against this bill filed by the inhabitants of the Pacific coast.

The resolutions adopted denounced the attorney general as a tool of Huntington and the appointment of Mose Gunst as police commissioner is characterized as a burning shame and disgrace to the responsible portion of the community. It was resolved that a committee of ten be appointed to wait upon Mose Gunst and request him to resign the office of police commissioner, also that a committee of eleven be appointed to effect a permanent organization of like character in securing the reforms so earnestly needed.

SACRAMENTO DESERTED.

Legislators Doing Senatorial Politics in San Francisco.

SACRAMENTO, January 12.—The legislative halls and resorts of politicians are deserted. The men who made all the excitement so far are either in San Francisco or at their homes. Most of them are doing senatorial politics in San Francisco. When the legislature reconvenes on Monday, according to the proposition of first business will be the adoption of a joint resolution or bill under which Lieutenant Governor-elect Millard may take the oath of office at Los Angeles.

Under resolutions which have been adopted in both houses, no bills may be introduced until the committee on rules shall have been appointed and made their report. If the committees shall be announced on Monday there seems to be no reason why the actual business of the legislature should not begin at once.

Announced by everybody, however, that the men of the state will have very little attention from the part of the lawmakers until the senatorial question shall have been settled. Nearly two weeks must elapse before a vote may be had for senator.

BIG FIRE AT WHEATLAND.

A Large Portion of the Town Burned Last Night.

WHEATLAND, January 12.—A big fire cleaned out a large portion of our town tonight. The postoffice, Wheatland hotel, Central hotel, Gem saloon, Duplex hardware shop and residence were entirely consumed. The loss is estimated at about \$15,000 to \$22,000. The fire originated in a boarder's room in the Central hotel, but just how is not known. There was no injury to person, but the loss to the lady postmaster and William Amick in property was heavy. The new depot and block opposite were nearly caught, but by the heroic work of citizens were saved. The old fellows were holding a banquet at the time of the fire at 8 p.m., and everybody left their Sunday clothes to run out the flames. The railroad company's fire department arrived from Rocklin, but was too late to do more than put out the fire, which was already under control.

The Waldens Arrested at Modesto.

MONROE, January 12.—The condition of Frank Silva, who was shot at his ranch near Modesto, is most critical. Steven Walden was arrested last night and his son Sr surrendered himself to Sheriff Price today. Both deny knowledge of the shooting, but in his dying declaration Silva positively identified both men as his assailants.

Walden Sr. is a well known politician and lobbyist and was twice assemblyman from this county. He has always been active in local politics. Bill has not been asked for pending Silva's injuries.

The Markets.

SAN FRANCISCO, January 12.—Wheat—Firm; May 87½c.

Barley—Steady; May, 87½c.

Corn—41½c.

Bran—\$12 per ton.

Quick Work.

Yesterday afternoon horses and buckboards were stolen from a hitching post on Fresno street. A lady had come in from the country and tied her horse there and when she returned it was missing. She immediately notified Constable John Albin, who with his deputies set to work to hunt the thief. In a short time Constable Albin found the rig which he had left and the man who was wanted was a short distance away. He had hitched the animal there to go into a storm to secure some supplies, as he intended to start off for the mountains immediately. He was arrested.

Fresh pies and cakes every day at the City Bakery and Restaurant.

Try Fresno French Perfume.

THE COUNTY ORPHANS.

A Proposition Under Consideration of the District Attorney.

Acting under a suggestion of the board of supervisors, a number of ladies of Fresno who recognized that the present administration of the county orphanage must be reformed altogether have formed an organization for the express purpose of running the institution under the control of the board of supervisors.

One letter concerning the institution of the work of organization has been submitted by the board to the district attorney for his opinion on the legality of the proposed reorganization of the orphanage, and all matters connected with the institution. It is believed that with a trained and qualified matron, a strictly non-sectarian administration, state aid might be obtained.

The district attorney's opinion may not be received for two or three days.

Meanwhile the superintendents are disposed to give the infant every possible consideration, but nothing can be done till the opinion is received.

Mrs. Hartley Sentenced.

RENO, Nev., January 12.—Mrs. Alice Hartley, who killed Senator M. D. Foley last July, was in court this morning with her nurse and 2-months' old baby. Judge Cheney denied the motion for a new trial, and sentenced the defendant to eleven years in the state prison. An appeal will be taken to the supreme court.

Special U. S. Attorney Appointed.

WASHINGTON, January 12.—The attorney general has appointed Charles A. Garter of San Francisco, special United States attorney for the Northern district of California.

MET AND ADJOURNED.

CITY BOARD OF EDUCATION IN SESSION.

The Joint Still There—Things to Be Done—Statement of the Finances.

The board of education met in special session last night with a full attendance. One member said that he thought 7 o'clock was the hour set for the meeting, another thought 7:30, and another thought 8 o'clock was the time. Consequently the meeting was not called until 8 o'clock, although two members had waited for a whole hour and another for a half.

Secretary Cummings announced that the purpose of the meeting was to consider the practicability of taking out a truce joint in the treasury money now provided for in the specific items of the new high school building; also to consider if the board wants to have the building stained and truck-pointed. The board advertised for bids for the staining and truck-pointing, but now they find they have no money to do the work. The contract was never let, and as they do not wish to have it done, they are very much concerned in which way Contractor Hickey will take the exterior back of the building. There does not seem to be any particular provisions made for this in the specifications, but it is known that it was proposed the building would be stained and truck-pointed. Mr. Hickey will meet here next week and the board will meet on Tuesday evening to confer with him.

The trans-joint matter was not spoken of after Mr. Cummings first mentioned it.

Mr. Dunlap, an agent for a new patent window balancer, appeared before the board and wanted to sell them his style of balancer for the windows of the city hall. He for the windows of the city hall, but, however, he did not receive any favorable impression with it.

H. W. Downing, who is to be the overseer in the construction of the building, was present. When Mr. Dunlap had finished, Downing stepped forward and pointed out the merits of another balancer which he had recommended. Downing finished by saying that the gentleman offered me 10 per cent to recommend his business to the board.

WHEATLAND DESERTED.

Legislators Doing Senatorial Politics in San Francisco.

SACRAMENTO, January 12.—The legislative halls and resorts of politicians are deserted. The men who made all the excitement so far are either in San Francisco or at their homes. Most of them are doing senatorial politics in San Francisco. When the legislature reconvenes on Monday, according to the proposition of first business will be the adoption of a joint resolution or bill under which Lieutenant Governor-elect Millard may take the oath of office at Los Angeles.

Under resolutions which have been adopted in both houses, no bills may be introduced until the committee on rules shall have been appointed and made their report. If the committees shall be announced on Monday there seems to be no reason why the actual business of the legislature should not begin at once.

Announced by everybody, however,

that the men of the state will have very little attention from the part of the lawmakers until the senatorial question shall have been settled. Nearly two weeks must elapse before a vote may be had for senator.

ONE MORE RAILROAD.

It is indeed a frigid day which does not witness the germination of a new railroad enterprise for the San Joaquin valley, and notwithstanding the fact that none among those which have come up in the past have developed into actual railroads, it is nevertheless encouraging. It shows that the desirability of this great valley as a field for railroad enterprise is recognized, and that sooner or later the construction of the roads necessary to the full development of our natural resources will begin.

The latest promoter to come to the front is R. C. Cushing, ex-mayor of Omaha and a prominent railroad contractor. He is now stopping in San Francisco, and the object of his visit is to arrange for the construction of a road from that city through the San Joaquin valley to eastern connections at Salt Lake. The road would penetrate the rich mineral districts of Southern Utah, where an abundance of coal can be procured, which could be delivered on this coast at from \$5 to \$1 a ton. Mr. Cushing built 1000 miles of the Burlington and Missouri river road, and was also instrumental in the construction of the Cincinnati Southern. He thinks the proposed road can be built at a cost of \$16,000 a mile.

The Republican has in the past made a good many railroad predictions, but it is not doing any prognostication in that line at present. It has learned by experience that there is a vast difference between railroads on paper and those which carry freight at less than the traffic will bear. It believes, however, that the road outlined by Mr. Cushing will be built some day, and that it is now an entirely practicable enterprise, giving as it would direct connection between sections of the country rich in dissimilar productions, and also giving a competing outlet to eastern markets. It will, at any rate, be a good thing to have the proposition investigated by a practical railroad man.

OWING A SENATORSHIP.

Last Thursday, M. H. de Young was interviewed concerning his senatorial aspirations by a Sacramento Bee reporter. In the course of the interview Mr. de Young said:

I have come to this city for the purpose of being a candidate for the United States senate. I think the people of the State of California owe it to me.

This language is so strange that it might lead to the suspicion that Mr. de Young does not fully appreciate the dignity pertaining to the high office to which he aspires. The people "own" a United States senatorship to no man. There is none so distinguished or so great, none whose public services have been so important that a senatorship is owed to him. The office is entirely within the free gift of the people, to be bestowed by them on whom they will. Often this prerogative is abused in its exercise by their representatives, but it exists nevertheless, and is universally recognized that it may be questioned if Mr. de Young has not introduced an absolutely unique idea in his theory that a senatorship may be owed to anybody. Such a thing as a popular obligation does not exist in the matter, nor could it while Republican institutions are such as they are. The assertion may be made general: There is no office in the United States so humble that it can be owed to anybody. The humblest constable in the land is and must be such by the free gift of a people who as citizens owed him absolutely nothing, and if this be true of such an officer, certainly not the less must it be of a United States senator.

Mr. de Young's theory of a public obligation to him is based on the claim that he has "worked for years for the interests of the people of this state." Granting that this is true, it is a fact to be earnestly considered by the people (for their representatives), but it in no way obligates them to place the senatorial toga on his shoulders. It is entirely conceivable in a general way that a man may have rendered most important services to the public and yet be undesirable as a United States senator. In brief, the theory of owing or being owed a senatorship must fail to the ground however one may view it. If Mr. de Young shall be elected to the Senate at any rate cannot be because the people owe him that office. They do not owe it to anyone.

OUR INDUSTRIOUS PRESIDENT.

In the course of a stinging criticism of "many of the Republican journals of the country," the Modesto Tribune remarks: "Industry and good management President Cleveland has become a multi-millionaire."

This feeling tribute to the President's industry is worthy of a little investigation. When Cleveland took the Presidential chair in 1885 he was estimated to be worth about \$100,000. At the present time he is supposed to be worth \$5,000,000 or \$6,000,000. In ten years, he has presumably added about \$5,000,000 to his fortune, or at the average rate of \$500,000 a year. Supposing that his admired industry impelled him to labor 300 days of ten hours each in every year, he must have earned \$108,67 a day, or \$36,67 an hour. So you see what industry may do for you, young man; by it you may hope to earn \$2.77 a minute. But, you say, good management was also required. Suppose a case: A man is particularly brilliant and able. He is engaged in a business where he is compelled to earn his money. Now if he clears \$20 a day above all expenses, you will admit that he is a good manager, will you not? Clearing \$20 a day, it would take him 835 days of \$500 working days each to make \$5,000,000, and probably health would break down before that time was nearly past.

The fact, dear Tribune, is that Pres-

dent Cleveland did not make his income fortune by "industry and good management." He made it as the element of luck barred) such fortunes always are made, viz: By taking advantage of the chances for gambling that our laws allow. And it is because he thus made a vast fortune that his sympathies are now wholly with the Wall-street manipulators. For a really good example of the effects of "industry and good management" it will be well to look elsewhere than to our esteemed chief executive.

A man has been introduced in the Fresno legislature making the Keeley cure compulsory for drunkards. Without discussing the feasibility of the measure, it may not be out of order to express some surprise that the necessity for such a law should have been first discovered in a state which prohibits by statutory enactment the manufacture and sale of intoxicating liquors. Prohibition and compulsory cure for drunkardism are a queer combination of laws, even in Kansas.

The San Francisco Call illustrates its enterprise with a telegraphic picture of the proposed new postoffice building in that city. It is an imposing structure, and its resemblance to the competing railroad is striking in one respect. They are both on paper.

Tom Delano Courier, which ministers well to the newspaper wants of the community where it is published, has entered on its eighth volume.

The Healdsburg Tribune has changed from eight-column folio to a five-column quarto, and is much improved by the change.

RANDOM REMARKS.

The anxious public will be pleased to know that Anna Gould is again to wed, not that she ever had been married, but to speak of, but she has been going to be so often that it is natural to speak of her as again about to wed. The happy man is he—but it doesn't matter who he is to be; it is Anna who is the public's chosen bride.

Will some philanthropist please arise to furnish us the name of, that is, our physician to physic the intellectual blindness of people so they can think?

Dear man, "it can't be did." Garrison's trumpet will not thoroughly arouse the people to whom you refer—those who foolish in Woodland, as well as elsewhere—will eternally remain dumb phlegm-like "intellectual blinders." You cannot stimulate energy in a clod, nor can you successfully vaccinate an ox with divine nectar; it won't take. Better give it up; you won't get on stony ground.

Dear man, "it can't be did." Garrison's trumpet will not thoroughly arouse the people to whom you refer—those who foolish in Woodland, as well as elsewhere—will eternally remain dumb phlegm-like "intellectual blinders." You cannot stimulate energy in a clod, nor can you successfully vaccinate an ox with divine nectar; it won't take. Better give it up; you won't get on stony ground.

Will some philanthropist please arise to furnish us the name of, that is, our physician to physic the intellectual blindness of people so they can think?

OLEANDER LETTER.

WEST PARK LETTER.

Items of News and Events of a Local Nature.

Mrs. Emily Webb Geary, who was to have left last week for the east to teach in a college, is suffering in San Francisco from a severe attack of tonsilitis and will not now go east, at least until after the winter.

Miss Bell Padon has gone to her home in Hanford after a two weeks' visit in Oleaner.

Mr. Tanahill and family have moved to Fresno, where they will make their home.

E. W. Wilson, our merchant, gave a surprise to a few of his friends on New Year's eve. Dancing and card playing were the amusements.

The Oleander Water Company held its regular meeting last Saturday night. New officers were elected for the coming year. George Elliott was chosen president, and K. J. Wilson secretary and treasurer.

The Oleander school boys are getting up a football team, and after practice will be ready to challenge outside teams.

J. D. Galloway has gone to Sacramento, where he has a position in the capitol.

The boys in this vicinity have organized a light weight football team, and they expect a game with the Central colors boys in a week or two.

Mr. Wilson shot at a duck in a mud puddle the other morning, but when he paddled out to it in his stocking feet it turned to be an oyster can.

John James and wife were over from Fowler last Sunday.

The Oleander Good Templars are making preparations for the district lodge which will meet on February 2d.

P. B. Chase is on the sick list.

A number of the Oleander boys have gone to Merced for hunting trips.

Sons of the bachelors of Oleander are buying and in a supply of food for the winter months. Donald Savory and Jack Stickland have saved about seventy or eighty pounds of carp for their own use.

Richard Robertson has a severe attack of sore throat, but is improving.

As the cold nights have set in, I think people ought to put their horses under cover. But I am sorry there are some that have to stand picketed by the roadside day and night.

The Oleander Hoot Owl club returned last week from five days of hunting in King River. The owl brought back a few down ducks and numerous tales of adventures, among which is a truthful story of a skunk getting its head fastened in some of their tinware and running several hundred yards at midnight through rain, followed by a couple of barefooted owls, who at last released it with a fishing line.

The club was entertained by Mr. and Mrs. M. B. Harris at their home on the evening of January 6th. An invitation to a gathering of the Hoot Owls made a good time for the recipient and all. Saturday evening the owls were at their best. After amusing themselves with games, listening to a history of one of the owl's tricks and indulging freely in refreshments, the owl became aware that it was past 12 o'clock and soon flew to their homes. Those present were Mr. and Mrs. M. B. Harris, Mrs. Coker of Fresno, Misses Edna and Anna Minn, Carrie Galloway, Messrs. B. Harris, L. L. Grana and A. E. Balch.

George P. Elliott is slowly recovering from a severe spell of sickness.

A very pleasant party was given at the home of Mr. and Mrs. W. A. Hodges last Friday evening. Guests present were Mr. and Mrs. William Brooks, Mr. and Mrs. W. W. Wilson, Miss Sallie Farnell, Mrs. E. Bolich and Minnie and Goffe Brooks.

Oleander, January 10th.

Henry Pratt of Fowler, a native son, is now on a trip to New York, it being the first time he has ever visited the east. He finds many things of interest on the Atlantic seaboard, but is of the opinion that the winter weather of New York is not to be compared with the climate of California.

W. A. Hodges yesterday filed a suit in insolvency. He is represented by Stark Wailes and E. S. Van Meter.

PERSONAL.

A. H. Woolley of Modesto is from Fresno.

H. D. Taft is from the Bay City.

H. T. Hudson is here from San Jose.

James S. Block is here from San Francisco.

Howard Harris of Folsom was in town yesterday.

Dan Overall of Visalia was in this city yesterday.

John J. Vincent was in from Garfield yesterday.

J. W. Smith came up yesterday from Kingsburg.

F. Parham and wife are here from San Francisco.

H. K. Hall of San Francisco is registered at the Hughes.

Miss Virginia Garrison of Sanger was visiting in this city yesterday.

J. J. Vanderburgh, editor of the Sanger Irrigator, was in the county yesterday.

Justice of the Peace Fairweather came over from Reedley on business yesterday.

Henry Krohn has gone to Chico Gold on a mining trip, and expects to strike it rich.

C. S. Taylor, teacher of the Washington colony high school, was in town yesterday.

City Recorder Clark is confined to his house with illness. His court has been closed for the past few days.

W. D. Gray is here from Sacramento where he spent a short time in the political atmosphere of the capital.

Miss Eugenia McCann of Traver has returned to her home after a visit with Mr. and Mrs. Othello Scribner of this city.

Misses Myrtle Rountree and Agnes Holm will return to Berkeley tomorrow morning, where they are attending the state university.

Bishop D. A. Goodsell, who is to preach the opening sermon in the K street E. M. Church, arrived in Fresno yesterday morning.

Sils Geis returns to the State university having spent the three weeks of vacation at home in Fresno.

Mr. and Mrs. J. B. Scott of Marion, Iowa, members of an excursion party touring California, are the guests of G. C. Hedges and family for a few days.

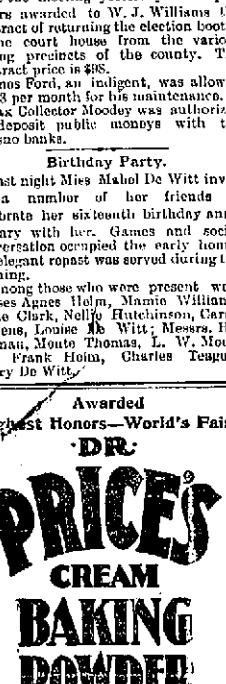

A. H. Powers of Centerville has gone to San Francisco to represent the Producers' Raisin Packing Company at a meeting of the California State Fruit Exchange.

Cold in the Head.

Colds in the head become prevalent with the approach of winter. People often ask how these troublesome complaints may be prevented. Probably the only satisfactory way of warding off these ailments is to maintain a high standard of one's health, and to this general axiom I would certainly add that we should endeavor to avoid moist rooms and foul air and to brace our lungs up as much as possible by free ventilation and outdoor exercise. When a cold in the head seizes you, camphor is a good remedy. Try a camphor inhalation. A teaspoonful of powdered camphor is added to a jug of boiling water, or put into an inhaler, and the steam is inhaled through the nose for five or ten minutes at a time. This inhalation may be repeated every four or five hours, but the patient must keep the house, and remain in an even temperature when so treating him or her case. A few drops of spirits of camphor taken on a piece of sugar are also recommended. —New York Dispatch.

40 YEARS THE STANDARD.

NEW BEDDING FOR THE JAIL.

The Supervisors Order the Destruction of the Old.

The tramps and the more or less unfortunate prisoners in the county jail are to have new and clean mattresses and blankets for the first time in some years.

It cannot be stated exactly how many years have elapsed since a supply of new bedding has been furnished for all the prisoners, but not since 1868.

Howard Harris of Folsom was in town yesterday.

Dan Overall of Visalia was in this city yesterday.

John J. Vincent was in from Garfield yesterday.

J. W. Smith came up yesterday from Kingsburg.

F. Parham and wife are here from San Francisco.

H. K. Hall of San Francisco is registered at the Hughes.

Mrs. Emily Webb Geary, who was to have left last week for the east to teach in a college, is suffering in San Francisco from a severe attack of tonsilitis and will not now go east, at least until after the winter.

J. D. Galloway has gone to Sacramento, where he has a position in the capitol.

The boys in this vicinity have organized a light weight football team, and they expect a game with the Central colors boys in a week or two.

It will be an invitation affair.

Mr. Vorce, who has been very ill, is considerably better.

Ed Winters returned from Bakersfield this week, where he had gone to attend the funeral of his niece.

By general request, Rev. J. W. Webb will preach at 11 a.m. in the school house each third Sunday in the month, commencing with the 20th inst.

RANIER.

West Park, January 12, 1895.

THE SUPERVISORS.

Contract Let for the Return of Election Booths.

At the meeting yesterday the supervisors awarded to W. J. Williams the contract of returning the election booths to the court house from the various voting precincts of the county. The contract price is \$18.

Edens Ford, an indent, was allowed \$8.33 per month for his maintenance.

Tax Collector Moody was authorized to deposit public moneys with the Fresno bank.

Birthday Party.

Last night Miss Malvina De Witt invited a number of her friends to celebrate her sixteenth birthday anniversary with her. Games and social conversation occupied the early hours. An elegant repast was served during the evening.

Among those who were present were Misses Anna Holm, Minnie Williams, Saile Clark, Nellie Hutchinson, Carrie Stevens, Louisa M. Witt; Misses Hall, Frank, Moutte Thomas, L. W. Moulton, Harry Holm, Charles Teague, Harry De Witt.

A. H. Powers of Centerville has gone to San Francisco to represent the Producers' Raisin Packing Company at a meeting of the California State Fruit Exchange.

Weak, Irritable, Tired

"I Was No Good on Earth."

Dr. Miles' Nervine strengthens the weak, builds up the broken down constitution, and permanently cures every kind of nervous disease.

"About one year ago I was afflicted with nervousness, sleeplessness, Creeping sensation in my legs, Slight palpitation of my heart, Distinctive confusion of the mind, Seizures or lapses of memory, Weighted down with care, and wearying sensations, especially in the evenings, I was weak, irritable and tired, My weight was reduced to 160 lbs. In fact I was no good on earth."

A friend brought me Dr. Miles' book, "Now and Starting Facts," and I finally decided to try a bottle of Dr. Miles' Nervine. Before I had taken one bottle I could sleep soundly on a 10-year-old boy. My weight returned to 165 lbs. and I feel greatly improved.

When I had taken the sixth bottle My weight increased to 175 lbs.

The sensation in my legs was gone.

My nerves steadied completely.

My brain seemed clearer than ever.

I feel as good as any man on earth.

Dr. Miles' Restorative Nervine is a great medicine, I assure you.

Augusta, Mo., Mrs. L. G. Brumley.

Dr. Miles' Nervine is a remarkable medicine. It will benefit you in every way.

It will cure you of all your ills.

It will give you strength and energy.

It will help you to live longer.

It will help you to live longer.
